

ADVANCE

Next Generation of Advanced Therapies' Specialists

ABOUT THE COURSE

ADVANCE 5-day Workshop will take place virtually in early May 2021.

The workshop will be building on the knowledge of the online course on ATMPs development launched in December 2020.

The agenda follows the 4 key challenges and bottlenecks of the ATMPs development cycle:

- Scientific
- Manufacturing
- Regulatory
- Reimbursement/Commercialisation

Clinical aspects will also be discussed.

Participants will hear keynote lectures by experts, complete hands-on group assignments, and will get a chance to present their research projects to peers and a panel of experts in a virtual poster session.

Confirmed lecturers: Matjaz Jeras (University of Ljubljana, Slovenia), Maria Cristina Galli and Lucia Gabriele (Istituto Superiore di Sanita, Italy), Helena Haque Chowdhury (Celica biomedical, Slovenia), Luigi Aurisicchio (Takis Biotech, Italy), Concetta Quintarelli (University of Naples Federico II Naples, Campania, Italy), Barbara Bonamassa (Italian Medicines Agency, AIFA, Italy), Umberto Restelli (Carlo Cattaneo University, LIUC, Italy)

5-day Workshop on ATMPs Development May 3 - 7, 2021
