

Alliance4Life kick-off meeting

Ferenc Marofka
Project Officer

European Commission, DG RTD
16 January 2018, Brno

H2020 participation in SC1 (health) per country

Funding in H2020 Health per population (100K)

EU13 participation and funding per sector (2003 – 2015)

Topic	EU13 participation share	EU13 funding share
ERC	2.6%	1.9%
Health	6.8%	3.3%
ICT	7.7%	4.4%
Space	7.8%	3.5%
Marie-Curie	8.6%	4.6%
Nano	9.0%	5.1%
Energy-Transport	9.8%	4.7%
Average on total	10.0%	4.9%
Environment and clima	10.4%	5.4%
Food-agri	11.2%	5.4%
Infrastructures	13.7%	5.5%
SME	14.6%	11.9%
Social sciences	17.9%	10.3%
Nuclear	18.5%	5.6%

EU 13 countries represent:

- **20.6%** of total EU population [2015],
- **8%** of total EU GDP [2015]
- **11.5%** of EU researchers (**13.5%** of female researchers)
- EU13 give **17.23%** of PhD students [2014]
- **10.75%** of all EU scientific publications [2000-2012]
- **4.20%** of EU's R&D investment (3.04% from business, 5.09% from government) [2013]

In H2020 EU13 countries represent:

- **8.5%** of all participations (**6%** in SC1)
- **4.5%** of funding (**3,2%** in SC1)

Total national R&D investments (GERD)

2006 = 100%

EU13 share of funding in H2020 Health (SC1)

Bridging the divide in European health R&I

2 CSA projects funded in 2014

and  , 500k€ each

- To analyse current situation, identify reasons, develop policy recommendations, run pilot remedial actions
- Findings: **top reason is money** for lagging behind of course, insufficient funding. But other important aspects revealed, e.g.:
 - **Crowding out effect of structural funds**, a lot of R&I money from those funds is available with little competition (and only nationally)
 - **Inefficient meritocratic system in academia** – not encouraging young talents, old professors holding their chairs with low embeddedness to international networks
 - **Brain-drain**, talents finding better conditions thanks to free movement of researchers
 - **No incentive for EU13 researchers to apply** to H2020– they receive their (low) home salary

HCO-08-2017: Actions to bridge the divide in European health research and innovation

- Proposals submitted: **13**
- Proposals selected for funding: **1**
- Indicative budget: **€ 1 million**
- Allocated budget: **€ 944,652**
- Beneficiaries: **100% EU13**

Final Rank	Proposal Acronym	Proposal Title	ESR Score
1	Alliance4Life	Life Science Alliance: Closing Research and Innovation Divide in the EU	15

Alliance4Life – key features

- Gathering top institutes from EU13 countries
 - 242 participations, 68,5M funding in H2020
 - 444 participations, 111M funding in FP7
- Fostering a horizontal cooperation
 - Cooperation among EU13 partners is atypical
- Self-assessment and commitment to reforms
- Spill-over effects to impact local ecosystems
- Plan for sustainability

Expectations from the EC

- Fulfil the tasks of the grant agreement
- Commitment of partners to participate, share knowledge and learn
- Willingness to carry out institutional reforms
- Mobilise the network and reach out
- Visibility – political, public and scientific
- Communicate EU Funding
